## NITRO CARBON RACE

Wheelset Weight	1.310 g
Material	T1000 Carbon
Diameter	29"
Inner width	27 mm
Outer width	32 mm
Rim height	16 mm
Spokes	Straight-pull; Bladed 2-1.5-2 mm
Nipples	Self-locking Ergal
Hubs	Engage (Straight-pull)
Front Axis	100x15 QR100 Boost 110x15
Rear Axis	142x12 Boost 148x12 QR135
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

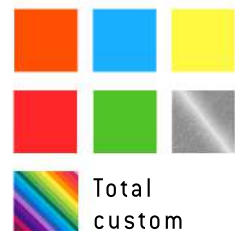

"Nitro Carbon Race" is our flagship model for MTB. It is a T1000 Carbon wheelset designed for the toughest and sweaty competitions of the most competitive athletes.

The new rim design generates superior driving confidence even on the most demanding descents.

Tubeless VT+ Kit included

### AVAILABLE COLOURS

# XC / MARATHON

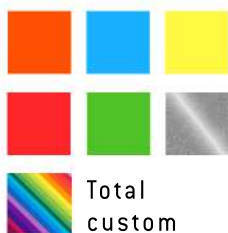

## NITRO CARBON

Wheelset Weight	1.320 g
Material	T1000 Carbon
Diameter	29"
Inner width	25 mm
Outer width	30 mm
Rim height	16 mm
Spokes	J-bend; Double-buttet 2-1.5-2 mm
Nipples	Self-locking Ergal
Hubs	Nitro (J-bend)
Front Axis	100x15 QR100 Boost 110x15
Rear Axis	142x12 Boost 148x12 QR135
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

### AVAILABLE COLOURS

"Nitro Carbon" is our most popular carbon model, thanks to the wide channel and low weight. The new Nitro rim with 25 mm channel has increased the stiffness and reactivity of the wheel, offering exceptional performance in pedaling and in the more technical sections.

Tubeless VT+ Kit included

List price 1.250 €

# XC / MARATHON

## NITRO RACE

Wheelset Weight	1.485 g
Material	7075 Aluminium Alloy
Diameter	29"
Inner width	28 mm
Outer width	31 mm
Rim height	16 mm
Spokes	Straight-pull; Bladed 2-1.5-2 mm
Nipples	Self-locking Ergal
Hubs	Engage (Straight-pull)
Front Axis	100x15 QR100 Boost 110x15
Rear Axis	142x12 Boost 148x12 QR135
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

"Nitro Race" is our aluminum model most appreciated by XC-Marathon cyclists, thanks to the wide channel and low weight.

The new Nitro rim with 28 mm channel has increased the stiffness and reactivity of the wheel, offering exceptional performance in pedaling and in the more technical sections.

Tubeless VT+ Kit included

### AVAILABLE COLOURS

# XC / MARATHON

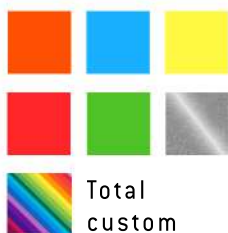

## NITRO

Wheelset Weight	1.485 g
Material	7075 Aluminium Alloy
Diameter	29"
Inner width	28 mm
Outer width	31 mm
Rim height	16 mm
Spokes	J-bend; Double-buttet 2-1.5-2 mm
Nipples	Self-locking Ergal
Hubs	Nitro (J-bend)
Front Axis	100x15 QR100 Boost 110x15 Lefty 2.0
Rear Axis	142x12 Boost 148x12 QR135 Lefty 2.0
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

### AVAILABLE COLOURS

"Nitro" is our best-selling aluminum model. The new Nitro rim with 28 mm channel has increased the stiffness and reactivity of the wheel, offering exceptional performance in pedaling and in the more technical sections.

Tubeless VT+ Kit included

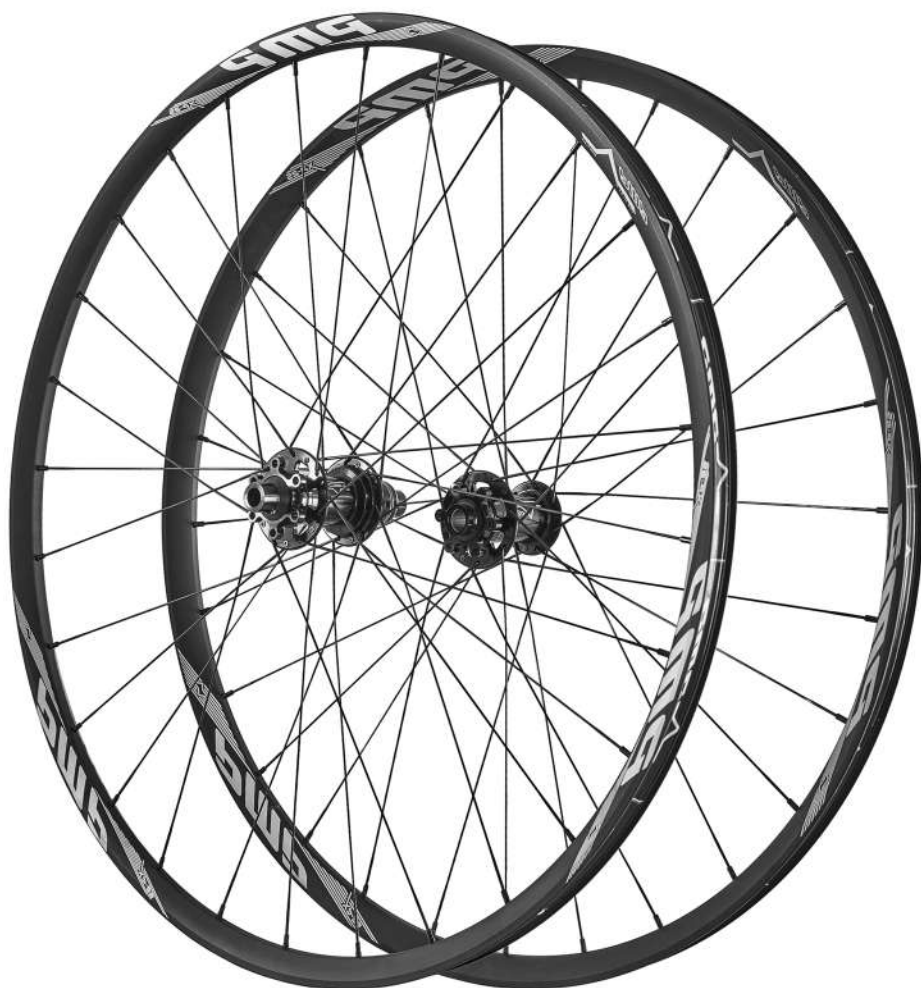

List price 630 €

# XC / TRAIL

## XP-25

Wheelset Weight	1.620 g
Material	7075 Aluminium Alloy
Diameter	29"
Inner width	25 mm
Outer width	28 mm
Rim height	18 mm
Spokes	J-bend; Double-buttet 2-1.5-2 mm
Nipples	Self-locking Ergal
Hubs	Nitro (J-bend)
Front Axis	100x15 QR100 Boost 110x15 Lefty 2.0
Rear Axis	142x12 Boost 148x12 QR135
Brake Interface	6-bolt disc
Max. Weight	110 kg
Max. Pressure	3 bar

The PMP XP-25 have been designed to meet the needs of those who need a light but strong wheel for XC / Trail use.

### AVAILABLE COLOURS

Tubeless Kit included

# TRAIL

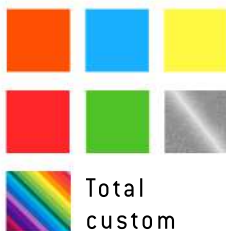

## XP-25 TOURING

Wheelset Weight	1.680 g
Material	7075 Aluminium Alloy
Diameter	29"
Inner width	25 mm
Outer width	28 mm
Rim height	18 mm
Spokes	J-bend; Straight-gauge 2 mm
Nipples	Self-locking Ergal
Hubs	Nitro (J-bend)
Front Axis	100x15 QR100 Boost 110x15 Lefty 2.0
Rear Axis	142x12 Boost 148x12 QR135
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

### AVAILABLE COLOURS

The PMP XP-25 Touring has been designed to meet the needs of those who need a lightweight, yet extremely robust wheel for Trail / All Mountain use.

Tubeless Kit included

List price 495 €

# GRAVITY

## XL27

Wheelset Weight	1.940 g
Material	7075 Aluminium Alloy
Diameter	29"
Inner width	27 mm
Outer width	33 mm
Rim height	21 mm
Spokes	J-bend; Double butted 2-1.8-2 mm
Nipples	Self-locking Brass
Hubs	Etreme (J-bend)
Front Axis	Boost 110x15 Boost 110x20
Rear Axis	Boost 148x12
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

The XL27 are specific wheels for Enduro: they combine grip, smoothness, absorption capacity and rigidity in the right percentage, thanks to the 27 mm channel and the asymmetrical section rim with Hookless profile.

Tubeless Kit included

AVAILABLE COLOURS

# GRAVITY

## DH

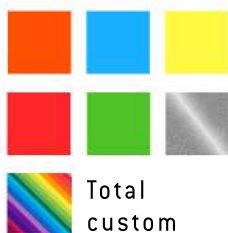

pmpbike.eu

Wheelset Weight	2.255 g
Material	7075 Aluminium Alloy
Diameter	29"
Inner width	27 mm
Outer width	32 mm
Rim height	21 mm
Spokes	J-bend;Straight-gauge 2 mm
Nipples	Self-locking Brass
Hubs	Extreme (J-bend)
Front Axis	110x20 Boost 110x20
Rear Axis	150x12 157x12
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

### AVAILABLE COLOURS

The PMP DH are Downhill wheels perfect for both professional use and for enjoying them in bike parks. They have been designed to increase speed and control on all types of routes.

Tubeless Kit not included

List price 495 €

# GRAVEL ENGRAVE

Wheelset Weight	1.510 g
Material	7075 Aluminium Alloy
Diameter	700C 29"
Inner width	21 mm
Outer width	26 mm
Rim height	19 mm
Spokes	J-bend; Double butted 2-1.5-2 mm
Nipples	Self-locking Ergal
Hubs	Nitro (J-bend)
Front Axis	QR100 100x12 100x15
Rear Axis	142x12 QR135
Brake Interface	6-bolt disc
Max. Weight	100 kg
Max. Pressure	3 bar

The PMP Engrave are wheels for Gravel use. They have been designed for the cyclist who requires comfortable, safe and high-performance wheels to rely on during his travels.

Tubeless Kit included

## AVAILABLE COLOURS

# TUBELESS

## ORANGE LATEX

ORANGE LATEX is a highly innovative tire sealant, successfully used on all types of tracks, road and off-road, on tubeless and tubular tires. It is 100% natural and eco-compatible. Its concentrated solution is able to close and seal even the worst punctures, quickly and definitively.

Its composition with low ammonia content does not damage rims nor spoke nipples, thus preserving the spoking of the wheel and offering a liquid persistence from 3 to 6 months of use.

Size	List price
300 ml	14,90 €
500 ml	18,50 €
1L	24,90 €
5L	79,90 €

# TUBELESS

## STANDARD KIT

---

The STANDARD TUBELESS KIT for aluminum and carbon rims includes a PMP TUBELESS TAPE and a pair of anodized CNC ergal valves weighing only 4g.

List price 29,90€

## VT+ KIT

---

The VT + TUBELESS KIT for aluminum and carbon rims includes a PMP TUBELESS TAPE and a pair of VT + valves with anti-clogging system and ACR sealant system.

List price 34,90 €

# TUBELESS

## ERGAL VALVES 50 MM

Made of Ergal and CNC machined, they are able to perfectly seal the rims of any mountain bike.

- **INCREASED RING:** they can be assembled and disassembled without any tools;
- **ANODIZED COLOUR:** Resistant to wear and immediately recognizable on the wheel, even in low light conditions.

List price **21,90€**

## VT+ VALVES

A new standard for Tubeless systems.

- **+280% AIR PASSAGE:** the passage of air is about 280% more than a traditional Presta valve;
- **ANTI-CLOGGING:** the valve does not clog due to latex residues;
- **SEALANT A-C-R SYSTEM:** it allows the introduction of the sealant directly into the cover, without ever disassembling the valve;
- **SIMPLIFIED TYRE SEATING,** without compressor.

List price **25,90€**

## PMP TAPE

PMP TUBELESS TAPE is perfect for taping any Tubeless Ready wheel. A 5 meter roll is enough to tape two 29 " rims.

Rim channel width

19 – 22 mm  
23 – 26 mm  
27 – 30 mm  
34 – 37 mm  
37 – 40 mm

# COMPONENTS

## CHAINRING

XP-R1 PMP chainring compatible only with XP-R1 PMP crankset.

Made of 7075 Eragal material machined from solid CNC.

Its design is compatible with 12-speed transmissions in correspondence with the coupling teeth.

Sludge-draining grooves help preserve drivetrain, especially chain wear.

Available in 30-tooth, 32-tooth, 34-tooth versions.

List price 85,00€

## BEARINGS

Replacement bearings for PMP wheels:  
the secret of our wheelsets' smoothness.

Made of steel,  
available in the following sizes:

10x19x7 mm  
10x22x7 mm  
12x14x6 mm  
12x24x6 mm  
12x28x7 mm  
15x24x5 mm  
15x26x7 mm  
15x28x7 mm  
17x26x6 mm  
17x28x7 mm  
20x32x7 mm  
25x27x7 mm  
12x14x6 mm

List price 12,00€

# CARBON GUARDIAN

## MUDGUARD

---

The PMP Carbon Guardian line is born from a combination of the 3K carbon fabric with a recycled rubber technopolymer, through high temperature polymerization carried out in an autoclave.

The rubber underneath prevents the carbon from wearing out as well as preventing mud and debris from adhering, as happens on poorer materials. This has the double function of preserving the component and avoiding clogging that could slow down the sliding of the wheel.

It can be mounted on any fork, standard or boost, and is secured with adjustable clamps covered with included heat-shrinkable tubes.
